INFORMATION FOR ORDERING OFFICES

SPECIAL NOTICE TO AGENCIES:

Small Business Participation

SBA strongly supports the participation of small business concerns in the Federal Supply Schedules Program. To enhance Small Business Participation SBA policy allows agencies to include in their procurement base and goals, the dollar value of orders expected to be placed against the Federal Supply Schedules, and to report accomplishments against these goals.

For orders exceeding the micropurchase threshold, FAR 8.404 requires agencies to consider the catalogs/pricelists of at least three schedule contractors or consider reasonably available information by using the GSA Advantage! on-line shopping service (www.fss.gsa.gov). The catalogs/pricelists, GSA Advantage! and the Federal Supply Service Home Page (www.fss.gsa.gov) contain information on a broad array of products and services offered by small business concerns.

This information should be used as a tool to assist ordering activities in meeting or exceeding established small business goals. It should also be used as a tool to assist in including small, small disadvantaged, and women-owned small businesses among those considered when selecting pricelists for a best value determination.

For orders exceeding the micropurchase threshold, customers are to give preference to small business concerns when two or more items at the same delivered price will satisfy their requirement.

Customer Information

- 1a. Table of awarded special item numbers (SINs)** with appropriate cross-reference to item descriptions and awarded price(s). For SIN descriptions, see pages 14-18.

- 1b. For Pricing:** Labor category rate tables are below.

- 1c. Labor Categories:** Labor category descriptions are below.

- 2. Maximum Order:** The Maximum Order designated for contracts awarded under this Schedule is \$1,000,000.00. Ordering activities may seek a price reduction for orders placed over this amount.
- 3. Minimum Order:** The Minimum Order designated for contracts awarded under this solicitation is \$100.00. Contractors are not obligated to honor orders under this dollar amount.
- 4. Geographic Coverage:** Domestic Delivery
- 5. Points of Production (City, County, State):** Same as company address
- 6. Discounts:** Government net prices (discounts already deducted).
- 7. Quantity Discounts:** .5% (one half of one percent) for tasks at or exceeding \$500,000
- 8. Prompt Payment Terms:** None. Information for Ordering Offices: Prompt payment terms cannot be negotiated out of the contractual agreement in exchange for other concessions
- 9a. Government Purchase Cards:** Notification that Government purchase cards are accepted at or below the micro-purchase threshold: Yes, per clause 552.232-79.
- 9b. Government Purchase Cards:** Notification that Government purchase cards are accepted or not accepted above the micro-purchase threshold: Will Not Accept

10. **Foreign Items:** None
- 11a. **Time of Delivery:** To be determined by order
- 11b. **Expedited Delivery:** To be determined by order
- 11c. **Overnight and two-day Delivery:** Available Upon Request
- 11d. **Urgent Requirement:** Available Upon Request
12. **F.O.B. Points:** Destination
- 13a. **Ordering Address:** System Dynamics International, Inc.
560 Discovery Drive
Huntsville, Alabama 35806
ATTN: Dana S. Cantrell
Phone: 256-895-9000
Fax: 256-895-9443
Email: dcantrell@sdi-inc.com
- 13b. **Ordering Procedures:** For supplies and services, the ordering procedures, information on Blanket Purchase Agreements (BPA's) are found in Federal Acquisition Regulation (FAR) 8.405-3.
14. **Payment Address:** System Dynamics International, Inc.
560 Discovery Drive
Huntsville, Alabama 35806

USA COMMITMENT TO PROMOTE SMALL BUSINESS PARTICIPATION PROCUREMENT PROGRAMS

PREAMBLE

SDI, Inc. provides commercial products and services to the Federal Government. We are committed to promoting participation of small, small disadvantaged and women-owned small businesses in our contracts. We pledge to provide opportunities to the small business community through reselling opportunities, mentor-protégé programs, joint ventures, teaming arrangements, and subcontracting.

COMMITMENT

To actively seek and partner with small businesses.

To identify, qualify, mentor and develop small, small disadvantaged and women-owned small businesses by purchasing from these businesses whenever practical.

To develop and promote company policy initiatives that demonstrate our support for awarding contracts and subcontracts to small business concerns.

To undertake significant efforts to determine the potential of small, small disadvantaged and women-owned small business to supply products and services to our company.

To insure procurement opportunities are designed to permit the maximum possible participation of small, small disadvantaged, and women-owned small businesses.

To attend business opportunity workshops, minority business enterprise seminars, trade fairs, procurement conferences, etc., to identify and increase small businesses with whom to partner.

To publicize in our marketing publications our interest in meeting small businesses that may be interested in subcontracting opportunities.

We signify our commitment to work in partnership with small, small disadvantaged and women-owned small businesses to promote and increase their participation in Federal Government contracts. To accelerate potential opportunities please contact Dana S. Cantrell, telephone (256) 895-9000, dcantrell@sdi-inc.com, and facsimile (256) 895-9443.

SPECIAL ITEM NUMBERS (SINs)

541330ENG Engineering Services

Services include applying physical laws and principles of engineering in the design, development, and utilization of machines, materials, instruments, processes, and systems. Services may involve any of the following activities: provision of advice, concept development, requirements analysis, preparation of feasibility studies, preparation of preliminary and final plans and designs, provision of technical services during the construction or installation phase, inspection and evaluation of engineering projects, and related services.

541380 Testing Laboratory Services

Includes testing laboratory services and veterinary, natural, and life sciences; testing services and laboratories; and other professional, scientific, and technical consulting services.

Testing and services include, but are not limited to: physical, chemical, analytical, or other testing services; quality assurance; fire safety inspections; training; safety audits; relying upon experimental, empirical, quantifiable data, relying on the scientific method, and professional services, tasks, and labor categories in the fields of biology, chemistry, physics, earth sciences, atmospheric science, oceanography, materials sciences, mathematics, geology, astronomy, veterinary medicine, statistics, systems science, etc., (excludes social and behavioral sciences).

541420 Engineering System Design and Integration Services

Services include creating and developing designs and specifications that optimize the use, value, and appearance of their products. These services can include determination of the materials, construction, mechanisms, shape, color, and surface finishes of the product, taking into consideration human characteristics and needs, safety, market appeal, and efficiency in production, distribution, use, and maintenance.

Associated tasks include, but are not limited to computer-aided design, e.g. CADD, risk reduction strategies and recommendations to mitigate identified risk conditions, fire modeling, performance-based design reviews, high level detailed specification and scope preparation, configuration, management and document control, fabrication, assembly and simulation, modeling, training, consulting, analysis of single or multi spacecraft missions and mission design analysis.

541611 Business Administrative Services

Provide operating advice and assistance on administrative and management issues. Examples include: strategic and organizational planning, business process improvement, acquisition and grants management support, facilitation, surveys, assessment and improvement of financial management systems, financial reporting and analysis, due diligence in validating an agency's portfolio of assets and related support services, strategic financial planning, financial policy formulation and development, special cost studies, actuarial services, economic and regulatory analysis, benchmarking and program metrics, and business program and project management.

541614SVC Supply and Value Chain Management

Includes supply and value chain management, which involves all phases of the planning, acquisition, and management of logistics systems.

541715 Engineering Research and Development and Strategic Planning

Service include conducting research and experimental development (except nanotechnology and biotechnology research and experimental development) in the physical, engineering and life sciences such as; such as agriculture, electronics, environmental, biology, botany, computers, chemistry, food, fisheries, forests, geology, health, mathematics, medicine, oceanography, pharmacy, physics, veterinary and other allied subjects.

Typical tasks include, but are not limited to, analysis of mission, program goals and objectives, program evaluations, analysis of program effectiveness, requirements analysis, organizational performance assessment, special studies and analysis, training, and consulting; requirements analysis, cost/cost performance trade-off analysis, feasibility analysis, developing and completing fire safety evaluation worksheets as they relate to professional engineering services; operation and maintenance, evaluation of inspection, testing, and maintenance program for fire protection and life safety systems, program/project management, technology transfer/insertion, training and consulting.

561210FS Facilities Support Services

Providing operating staff to perform a combination of support services within an agency's facilities that include planning, designing, managing, operating and maintaining reliable and efficient systems, equipment, facilities and logistics infrastructures to improve equipment and logistics performance, and reduce life cycle costs.

Examples include providing a combination of services, such as complete turnkey operations, maintenance and support services, Base facilities operation support services (excluding computer operations), depot maintenance, preventative maintenance planning, fleet/property management and maintenance, mobile utility support equipment operation, maintenance and repair, strategic account/project management, integrated facility management and operations management support., janitorial, maintenance, trash disposal, guard and security, mail routing, reception, laundry, and related services to support operations within facilities.

611430 Professional and Management Development Training

Services include offering an array of short duration courses and seminars for management and professional development. Training for career development may be provided directly to individuals or through employers' training programs, and courses may be customized or modified to meet the special needs of customers. Instruction may be provided in diverse settings, such as the establishment's or agency's training facilities, and through diverse means, such as correspondence, television, the Internet, or other electronic and distance-learning methods. The training provided may include the use of simulators and simulation methods.

OLM Order Level Materials

OLMs are supplies and/or services acquired in direct support of an individual task or delivery order placed against a Schedule contract or BPA. OLM pricing is not established at the Schedule contract or BPA level, but at the order level. Since OLMs are identified and acquired at the order level, the ordering contracting officer (OCO) is responsible for making a fair and reasonable price determination for all OLMs.

Labor Category Titles and Descriptions

Program Manager

The Program Manager is responsible for program planning, execution and performance. He or she manages substantial operations involving multiple projects/task orders at diverse locations. He or she organizes, directs and coordinates planning and execution of all program/technical support activities. He or she provides coordination with customers, team members, and subcontractors. BS/BA 15 years.

Project Leader II

The Project Leader II is responsible for managing all aspects of more complex projects. Provides overall technical direction to project level activities. Coordinates activities related to executing program/technical support activities in support of the project as it relates to the overall goals of the task assignments. 8Phd, 10MS/MA, 12 BS/BA, 16HS, 3+ management of large projects.

Project Leader I

The Project Leader I is responsible for all aspects of project performance and provides overall technical direction to project level activities for a subtask, effort, task order or group of task orders. He or she performs functions associated with resource provision, tracking of technical progress and resource consumption, and quality control of emerging and final products. 8Phd, 10Ms/MA, 12 BS/BA, 16HS.

Technical Staff V

The Technical Staff V provides technical leadership, direction and special skills for complex tasks and portions of tasks that require unique or uncommon levels of expertise related to a specific functional subject matter. The Technical Staff V may be a consultant assigned to the task for a limited time to address specific technical issues. Duties shall be comparable to those of the Technical Staff IV but at an advanced level of skill, requiring a higher level of experience and/or education. 13PhD, 18 MS/MA, 23 BS/BA, 24 AS/AA, 26 HS.

Technical Staff IV

The Technical Staff IV provides technical leadership, direction and special skills for complex tasks and portions of tasks that require unique or uncommon levels of expertise related to a specific functional subject matter. The Technical Staff IV may be a consultant assigned to the task for a limited time to address specific technical issues. 12PhD, 16 MS/MA, 21 BS/BA, 22 AS/AA, 24 HS.

Technical Staff III

The Technical Staff III performs and leads engineering or scientific tasks. Independently investigates and solves complex and advanced problems through the application of design methods, theories and research techniques. 10Phd, 15 MS/MA, 20 BS/BA.

Technical Staff II

The Technical Staff II investigates and solves complex and advanced problems through the application of design methods, theories and research techniques. 10Phd, 15Ms/MA, 20 BS/BA, 22 AA/AS, 24 HS.

Technical Staff I

Technical Staff I has experience in the analysis, planning, development, installation and support of integrated systems. Experience in planning, monitoring and tracking government contract activities, including prime and subcontractor activities and deliverables. Works with other engineers on projects. 10BS/BA, 15 AS/AA.

Engineer/Scientist V

The Engineer/Scientist V plans, conducts and technically directs projects or major portions of projects, coordinating the efforts of engineers and technical support staff. He or she supports technical design development of complex subsystems and prepares major sections of system requirements definition including specifications and standards. 8Phd, 12MS/MA, 15BS/BA, 8 management experience.

Engineer/Scientist IV

The Engineer/Scientist IV works within an interdisciplinary project team. He or she assesses problems and develops alternative solutions. He or she participates in special studies, analysis tasks, literature searches and analyses, and design tasks to develop solutions. 5Phd, 8Ms/MA, 10/BS/BA.

Engineer/Scientist III

The Engineer/Scientist II has five or more years of management experience in the analysis, planning, design, development, installation and support of integrated systems. Experienced in program, financial and resources management, engineering support and acquisition/development of systems and equipment. Experienced in automated government acquisition and contract management processes. Demonstrated experience in planning, monitoring and tracking government contract activities, including prime and subcontractor activities and deliverables. 7 BS/BA, 10AS, AA, 20HS, 5 management.

Engineer/Scientist II

The Engineer/Scientist II provides support in the technical design development of a system or subsystem. He or she performs a limited number of independent technical tasks to support the development of engineering solutions. 2MS/MA, 4BS/BA.

Engineer/Scientist I

The Engineer/Scientist I performs relatively routine technical tasks in the technical design development of a system or subsystem. He or she performs a limited number of independent technical tasks to support the development of engineering solutions. This work is performed under the supervision of a higher level engineer, scientist or task order leader. BS/BA.

Co-op Engineer/Scientist

The Co-Op Engineer/Scientist supports engineers performing technical design development and test and evaluation of systems, subsystems, or components. He or she participates in studies and analyses and participates in the preparation of project documentation including technical and administrative reports. HS/0, Pursuing degree.

Technical Specialist II

The Technical Specialist II develops, tests, and evaluates the design, maintenance, operation, or installation of systems and equipment. He or she conducts tests and experiments, prepares test procedures, records, analyzes, and evaluates test data. 8AS/AA, 10 HS.

Technical Specialist I

The Technical Specialist I performs routine and non-routine assignments of low to moderate complexity. He or she follows test procedures, conducts tests, takes measurements, collects and analyzes test data. 3AA/AS, 5 HS.

Analyst/Logistician/Courseware Developer VI

The Analyst/Logistician VI generally performs a lead function in a team performing comprehensive analysis of complex problems, operations research modeling, and process analysis/design. The individual might act as a task leader on a specific task, or if working independently, be acting as a senior specialist providing guidance on how the project should be administered while solving complex problems unique to his or her skill level. 22 Phd, 25 MS/MA, 28 BS/BA, 32 HS.

Analyst/Logistician/Courseware Developer V

The Analyst/Logistician V generally performs a senior function in a team performing comprehensive analysis of complex problems, operations research modeling, and process analysis/design. The individual might coordinate various activities of other team members working on a specific task. The Analyst/Logistician V can also work independently of direct supervision. When working independently they might work on a specific project with minimal guidance and be responsible for the completion of the task assignment within the constraints of the budgeted time and dollars allotted for the task. 21 Phd, 23 MS/MA, 26 BS/BA, 31 HS.

Analyst/Logistician/Courseware Developer IV

The Analyst/Logistician IV provides management and comprehensive analysis of complex problems, definition of functional requirements, operations research, modeling, process analysis and design, and develops training materials. He or she performs evaluation of alternatives and makes recommendations to management or clients on the best alternative to select. The Analyst/Logistician IV may be called upon to lead technical discussions and act as a liaison between different groups working on a project. 20 Phd, 22 MS, 25 BS, 30 HS.

Analyst/Logistician/Courseware Developer III

The Analyst/Logistician III provides management and comprehensive analysis of complex problems, definition of functional requirements, operations research, modeling, process analysis and design, and develops training materials. He or she performs evaluation of alternatives. 8 BS/BA, 10 AS/AA, 11 HS.

Analyst/Logistician/Courseware Developer II

The Analyst/Logistician II works within an interdisciplinary project team assessing problems and developing potential solutions. He or she participates in special studies and analysis tasks and prepares documentation including technical and administrative reports. 3 BS/BA, 5 AS/AA, 6 HS.

Analyst/Logistician/Courseware Developer I

The Analyst/Logistician I provides support to project teams assessing problems and developing and selecting potential solutions. He or she participates in studies and analyses including extensive literature searches to develop solutions. He or she prepares project documentation including technical and administrative reports. 0 BS/BA, 2 AS/AA, 3 HS.

Administrative Support II

Administrative Support II personnel provide support to the technical and management staff by maintaining project files, preparing correspondence and scheduling and coordinating travel and meetings. They assist in the preparation of reports and briefing and other contract deliverable items. Administrative Support II personnel will generally have more experience with more complex software packages and are more proficient in handling more difficult situations. 4 HS.

Administrative Support I

Administrative Support I personnel provide support to the technical and management staff by maintaining project files, preparing correspondence and scheduling and coordinating travel and meetings. They assist in the preparation of reports and briefing and other contract deliverable items. 0 HS.

SDI SCLS Matrix

SCLS Eligible Contract Labor Category	SCLS Equivalent Code Title	WD Number
Administrative Support I	01111 General Clerk I	2015-4603
Administrative Support II	01113 General Clerk II	2015-4603
Co-op Engineer/Scientist	30081 Engineering Technician I	2015-4603

The Service Contract Labor Standards, formerly the Service Contract Act (SCA), apply to this contract and it includes SCLS applicable labor categories. Labor categories and fixed price services marked with a (**) in this pricelist are based on the U.S. Department of Labor Wage Determination Number(s) identified in the SCLS/SCA matrix. The prices awarded are in line with the geographic scope of the contract (i.e., nationwide).
